RIN 1210 – AB32

I have taken the time to learn proper options trading. I have more than 15 years of experience. In this flat market only way to increase my wealth is by options premiums. I am now years old. Option premiums/option trades reduce risk, rather than increase it. By selling covered puts I can buy the stock at my price in my 401k rollover account. I have account with Fidelity. Please do not disturb the current situation. I request you not to change the existing option trading privileges in my retirement account.

Thanking you
